

**SUPERTEA**

In 1908, American tea merchant Thomas Sullivan distributed samples of tea in silk pouches. Not intending his customers put them directly in hot water that way, some tried it and asked for more of the same. It was thus by accident that the tea bag was born.

We've come a long way since then. Today, Supertea's bags are made with environmentally friendly, biodegradable paper, and each of our paper tea bags carry delightful, innovative tea and herbal infusions of liquorice, elderflower, aronia berries and more.

It's super tasty. It's Supertea.

**Green Tea Mint Organic**

## COLD BREW

Did you know Supertea is delicious warm or cold? For cold brew, simply combine your favourite Supertea with cool water and refrigerate for 2-4 hours, depending on desired strength. Remove tea and, optionally, add sliced lemons, sweetener of choice, fresh mint and/or berries for a beautiful cold-brew.
